

Requirements for taking notes at home

Purpose: Students will record notes at home and then come in to class for discussions, hands-on activities, centers and labs during class. This way, students are able to get the notes, without taking away time from class activities that go along with the PowerPoint notes.

OPTIONS:

Option 1: Take notes in science journal, Cornell notes style based on the PowerPoint.

- Highlight the important information and write questions to the side of the notes (on the left side) for us to go over in class.
- Write at least TWO questions or TWO statements on what you learned

Option 2: Print out PowerPoint slides and annotate the slides. Staple the slides into science journal

- Highlight the important information and write questions to the side of the slides.
- Write at least TWO questions or TWO statements on what you learned.

****Ms. Armentrout has the right to have a ticket-in based on the notes if she feels that the majority of the class has not analyzed the notes. ****

Exceptions: If you do not have a computer with internet access at home, you can get a paper copy from Ms. Armentrout the day before the notes are due. If you do not have a printer, you will need to do option 1. I will not print out extra copies for student's that have computers but do not have printers.
